The Advantage

JK Media Agency is led by Joseph Kigozi, a veteran of the Ugandan media industry. Having served as Deputy CEO of major networks and CEO of national broadcasters, Joseph brings an "Insider's Perspective" that traditional agencies cannot match.

The Advantage: We don't just guess what works; we have built the systems that run Ugandan media.

Our Core Service Pillars

We provide a 360-degree approach to brand visibility:

Media Strategy & Buying: Data-backed placement utilizing our deep NAB ties for "unfair" visibility.

PR & Reputation Management: Crisis control and stakeholder engagement for government and private sectors.

Sports Marketing: High-fidelity storytelling and brand integration into the Ugandan sports ecosystem.

Digital & Events: Managing social ecosystems and high-impact physical activations.
